

# CENA

Vincent Van Duysen

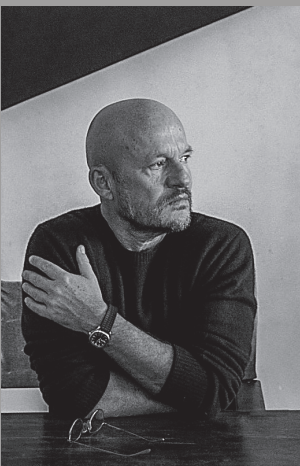

# SERAX

For the CENA dinner service, architect Vincent Van Duysen set to work with the archetypes of tableware. They were then seamlessly translated into the acclaimed Van Duysen signature: warm and purified. "CENA brightens up the table through its combination of various natural materials such as glazed porcelain

and smoked glass. Together, these materials create a warm and cheerful atmosphere that perfectly translates to everyone's taste and lifestyle thanks to my familiar palette of colours in off-white and greige," says Van Duysen.

## VINCENT VAN DUYSEN

Vincent Van Duysen (1962) is one of Belgium's most acclaimed architects, interior designers, and product designers. His style builds on purism and a sophisticated use of materials. Timeless designs, reduced to their very essence. His Passe-partout collection does not clamour for attention, it stands out naturally for its simplicity and tranquillity.
